

NEW RELEASE • SCALE MODEL EXCELLENCE

Ultimate 3D-Printed Detail Sets for Connoisseur Modelers

HOT NEW RELEASE FROM ASK DISTRIBUTION S.R.O.

Item No: 200-A48109
Description: F-16 Early ACES II Ejection Seat (Without Seat Belts)
Scale: 1/48
Recommended kit: Kinetic F-16 series

Expand your modeling options with the latest variation from **ASK Distribution s.r.o.**! We are proud to present our masterfully engineered **F-16 Early ACES II Ejection Seat**, explicitly designed **without seat belts**. This special release offers exceptional flexibility for modelers who prefer customized cockpit configurations while retaining our signature peerless 3D construction and brilliantly crisp 3D-printed fidelity.

By omitting the integrated harnesses, this set allows you to easily paint the entire seat structure first. It provides the perfect clean canvas to install your preferred aftermarket photo-etched color belts, custom fabric harnesses, or seamlessly seat a pilot figure into the cockpit. It is **highly recommended for the Kinetic kit** as a direct drop-in upgrade.

Key Features & Customization Benefits:

- **No Seat Belts:** Clean configuration optimized for custom photo-etched, textile belts, or pilot figures.
- **Unrivaed 3D Design:** Masterfully engineered using genuine blueprints for absolute fidelity.
- **Brilliant 3D Printing:** Ultra-smooth surfaces with zero visible print lines for hassle-free painting.
- **Perfect Fit:** Tailored specifically for flawless integration into Kinetic F-16 cockpits.

PAINTING & WEATHERING GUIDE

To achieve a striking, true-to-life look, we recommend starting with a high-quality primer (such as Mr. Finishing Surfacer 1500 Black) to create natural pre-shading in the deep recesses. Follow up with thin, layered coats of the colors listed below.

Part / Component	Tamiya	Mr. Hobby	AK Interactive	Vallejo Paint
Main Seat Structure Dark Gull Gray	XF-54 / XF-66 (Mix)	H317 / C317	RC244	71.277 (Model Air)
Seat Cushion & Backrest Olive Drab / Khaki Green	XF-62 / XF-49	H304 / C304	RC023	70.887 (Model Color)
Headrest Cushion Flat Black / Dark Charcoal	XF-1 / XF-85	H012 / C033	RC001 / RC022	70.950 (Model Color)
	XF-3 / XF-1		RC007 / RC001	70.953 / 70.950

Part / Component	Tamiya	Mr. Hobby	AK Interactive	Vallejo Paint
Ejection Handles Bright Yellow & Black Stripes		H004 / H012		
Buckles & Metal Fittings Silver / Steel	XF-16 / X-11	H008 / C008	AK11210 (Natural Steel)	71.063 (Model Air)

Finishing Tip: After painting, apply a gloss coat followed by a dark gray pin-wash (e.g., Tamiya Panel Line Accent Color Black/Dark Gray) to pop out the crisp 3D-printed details. Finish with a high-quality ultra-matte varnish to eliminate artificial glare on the fabric cushions.
